

English / Espanol - with a tiny example for each term.

ENGLISH	ESPANOL	EXAMPLE / EJEMPLO
function	funcion	each input, one output
domain	dominio	all valid inputs (x)
range	rango	all outputs (y)
function notation	notacion de funcion	$f(x)$ = output at x
piecewise function	funcion por partes	different rule per interval
step function	funcion escalon	jumps in constant pieces
absolute value function	funcion de valor absoluto	V-shaped, $y = x $
transformation	transformacion	shift, stretch, or flip
translation	traslacion	slide the graph
reflection	reflexion	flip across an axis
average rate of change	tasa de cambio promedio	$(f(b)-f(a)) / (b-a)$
increasing	creciente	rises left to right
decreasing	decreciente	falls left to right
relative max / min	maximo / minimo relativo	a local peak or valley
interval notation	notacion de intervalo	$[a, b]$ or (a, b)
end behavior	comportamiento final	y at the far ends
